

LONG BOILERPLATE

---

Founded in Sag Harbor, Yacht Hampton is a concierge-led yacht charter and membership company offering effortless access to the water across the Hamptons and the Palm Beaches. What began with a single vessel has grown into an internationally sourced fleet of more than twenty-nine company-owned boats and yachts, including models from leading Italian and Spanish builders. Operating from its privately owned marina in Sag Harbor, with service throughout Palm Beach County, Yacht Hampton offers private day charters, sunset cruises, watersports, waterfront dining excursions, corporate outings, milestone celebrations, and customized experiences.

Through its FleetShare™ membership, members receive standing access to the full fleet without the costs, responsibilities, or long-term commitment of traditional yacht ownership. Every experience is supported by Yacht Hampton's in-house team of USCG-licensed captains and dedicated concierge professionals, who manage each charter from beginning to end, including vessel selection, itinerary planning, provisioning, restaurant reservations, crew coordination, and convenient pickup arrangements. By combining fleet ownership, experienced captains, local knowledge, and personalized service, Yacht Hampton delivers a seamless way to experience two of the country's most celebrated boating destinations.
